2017 ThinkFirst Conference on Injury Prevention Sponsor Form

About ThinkFirst: The ThinkFirst National Injury Prevention Foundation was founded in 1986 by the American Association of Neurological Surgeons (AANS) and the Congress of Neurological Surgeons (CNS) to educate children and teens on preventing brain and spinal cord injuries. ThinkFirst chapters throughout the United States and internationally give thousands of free presentations each year in order to help kids and teens learn to make safe choices on the playground, behind the wheel, at home or at school. Adult classes focus on preventing falls. The Foundation trains chapter directors and physicians to present programs, and develops evidence-based program materials for their use.
